GROUP

Plasta Group is one of the largest European polyethylene recyclers, producers, and suppliers of sustainable plastic products.

Aiming to minimize worldwide plastic waste and ensure circularity, we are using waste plastics as a raw material to produce new products for everyday use. We make garbage bags and other PE film products.

Our products are supplied both to the professional market (waste management, public sector, cleaning companies, and industry) and customers within the consumer side.

KEY FACTS

Headquartered in Vilnius, Lithuania

2 modern plants in Lithuania and Sweden

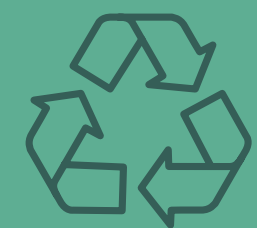

Representative offices in Germany, Sweden and Lithuania

Group holds ISO 9001 & 14001, Blue Angel, EuCertPlast, Nordic Swan Ecolabel and Normpack certificates

60 years of experience in the market

Recycling over **35 000** tons of post-consumer plastic annually

Over **550** employees in the company group

Over **60** mln. EUR annual turnover

PRODUCTS

We produce a wide range of eco-conscious LDPE garbage bags and refuse sacks, pet waste bags, protective and construction films for retail, industrial, and service sectors, as well as freezer bags. Integrated recycling and production processes allow us to ensure operation quality.

We carry out private-label product projects within all market sectors. We will help clients find the right solution regardless of the order size.

GARBAGE BAGS FOR CUSTOM ORDERS

We are known across Europe thanks to our extensive range of high-quality sustainable garbage bags for private-label orders. We deliver our products to customers in more than 20 countries in Europe.

Combined machine park of over 100 manufacturing lines allows us to offer all types of bags for your private label needs.

Our 100% PCR based products start with a thickness of 7 micron and can go up to over 100 microns, depending on the end user and product application.

Choose the size, thickness, color, and label, and we will manage the entire process of manufacturing private-label waste bags for you. Customizable print options are available.

For special purpose bags we can offer other materials, such as virgin or renewable PE.

BRANDED GARBAGE BAGS FOR RETAIL

Our branded garbage bags are made from 100% recycled material, making them a great environmentally friendly choice.

The retail range of our garbage bags has been tailored to the needs of end-users — both household and business customers. In this selection you will find bags that match various needs by function, thickness, color, size, and closure.

WASTE BAGS FOR HOUSEHOLD

Extremely durable garbage bags are made from 100% recycled post-consumer waste. Product quality is ensured by our R&D laboratory's research and testing.

STRONG

Extremely strong garbage bags are several times more durable than ordinary ones. Our bags are impermeable to fluids.

STRONG MEGA PACK, BOX

Mega Pack garbage bags are packed in compact boxes that are handy to keep in any household or for industrial use. The Mega Pack box can be stored in a small drawer or on garage shelves. It is a very practical and cost-effective solution: there are so many garbage bags in one box that people can forget about buying new bags for about 3-6 months. Bags come with a dispenser, so it is convenient to pull them out of the box and pull them apart.

WASTE BAGS FOR PROFESSIONALS

Several decades of experience working with a number of clients in a wide range of business areas made us aware of customer preferences. Our range is tailored to the needs of our customers in various business segments.

The production includes garbage bags to be used by cafes, restaurants, and hotels, ideal for cleaning companies and other small and large businesses, as well as the public sector.

We also specialize in waste segregation and collection bags distributed by councils to citizens across Europe.

BIN BAGS-STRONG

Extremely strong garbage bags are several times more durable than ordinary ones. Our bags are thick, tight, and impermeable to fluids. A wide range of bag sizes fits the needs of any consumer: from the smallest 30-liter bag for the bathroom junk box to a bag of 240-liter capacity for garden or yard works, industrial needs, or public sector use.

LDPE FILM PRODUCTS

Our LDPE films, made of recycled material, feature excellent mechanical properties — resistance to tearing, flexibility and durability. Low-density durable polyethylene films are of general purpose and can be used in a variety of ways. There are many options available to choose from.

LDPE films can be used as construction and protective films.

Our polyethylene films are mostly used in construction works: as a separation layer during concrete laying; as an underlay film in scaffolding and finishing works; for privacy, cold or dust protection on construction sites; or as a cover for moisture-sensitive materials.

CONSTRUCTION AND PROTECTIVE LDPE FILM

Construction film is a universal black, white, or coextruded black/white film. Its uses span from construction to industrial or agricultural application.

Length, m	from 15 m
Width (flat), mm	1500-6000 (1,5 - 6 m)
Width (folded), mm	750-1500 (0,75- 1,5 m)

Color	transparent, any color
Print, one color, continuous (print width 500 mm, print step 500 mm)	no

CONSTRUCTION AND PROTECTIVE LDPE FILM MINI ROLLS

Our LDPE films are available as mini rolls, which makes them excellent for personal use because of its package size and transportation convenience

Length, m	10 - 50 m
Width (flat), mm	2000-4000 (2 - 4 m)
Width (folded), mm	750-1200 (0,75- 1,2 m)

Packing in roll	roll diameter Ø 57 mm roll length 75-120 cm
Color	transparent and black opaque
Print, one color, continuous (print width 500 mm, print step 500 mm)	no

COEXTRUDED MULTI-LAYER FILM

Our group offers durable multi-layer films for long-term use. The applications of two-layer and three-layer films are very diverse. The two-layer film perfectly serves as a coating or for insulating or packaging. The three-layer film is universally used in the construction.

Length, m	from 15 m
Width (flat), mm	1500-4000 (1,5 - 4 m)
Width (folded), mm	750-1200 (0,75- 1,2 m)
